

The Finest Craftmanship From Experienced Professionals.

ROYAL CONSTRUCTION
GROUP

CUSTOM MANUFACTURING

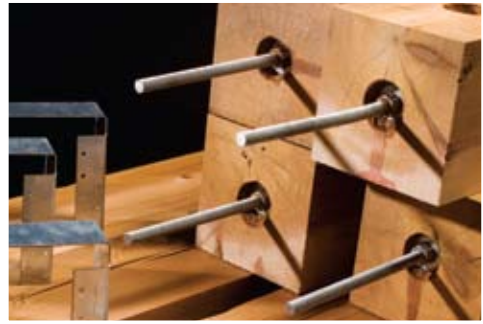

Our 10,000-square-foot manufacturing facility utilizes high-end woodworking equipment staffed by expert carpenters.

Both our facility and our equipment can accommodate extremely large timber beams, so we are able to scroll cut and prefabricate unusually large items.

WE SHIP KITS

Feel free to use one of our standard profiles or allow us to customize decorative end-cuts for you. We can ship a standard or custom kit containing everything you need for installation directly to your job site. Ask about our installation services performed by expert field carpenters.

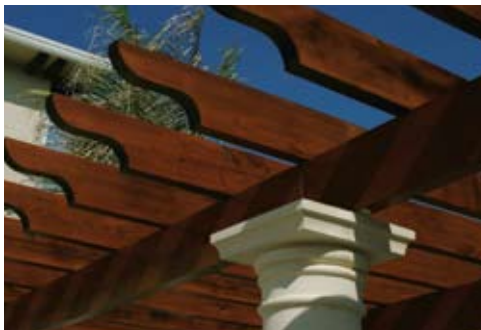

All of our catalog items meet Miami-Dade wind code.

EXTERIOR MILLWORK & HEAVY TIMBERS

RCG uses specialized, precision equipment to produce superior quality scroll cuts and perfectly aligned mortise and tenon. Field equipment cannot match our quality — with us your product will be installed more quickly and look better.

Gazebos • Trellises • Pergolas • Arbors • Fences & Gates • Decking & Railing • Tongue & Groove Ceilings • Shutters • Brackets
